

EH&S Training Schedule

March 2015 - Training Classes

Thanks for the overwhelming response for the Basic CPR class! It filled so fast, we will be offering it again April 8th from 10am – 12pm. You can register online.

Open Enrollment Classes for March

Register for any of the following classes here: <http://www.ehs.washington.edu/psotrain/corsdesc.shtml>

First Aid and CPR Certification

This 8-hour hands-on training course by EMTA will teach you how to provide CPR and first aid for fractures, respiratory failure, and environmental emergencies such as bites, stings, hypothermia, and heat stroke.

March 3rd in T-635 and 4th in T-531, 8:30am – 12:30 pm each day, Health Sciences Center

Evacuation Warden/Building Evacuation

This classroom training course will teach you the building evacuation warden duties in the event of a fire or other building emergency. The course covers planning and facilitating evacuation drills, building emergency alarm signals, evacuation routes, areas of refuge, exterior assembly areas, and procedures for evacuation.

March 4th, 9:00 am – 11:00 am, 303 South Campus Center

Laboratory Safety Standard Compliance

This classroom training course is designed for principal investigators and laboratory managers. It provides background material on the laboratory safety standard and addresses hazards and risk assessment in the laboratory to ensure lab compliance.

***NEW ROOM* March 5th, 10:00am – 12:00pm, Health Sciences Center T-747**

Shipping Regulated Medical/Biohazardous Waste via Contracted Carrier

This classroom course teaches how to prepare regulated medical/biohazardous waste for collection by the UW waste contractor, in accordance with the Department of Transportation (DOT) requirements. The class includes hazard awareness, safety procedures, function-specific shipping preparation, and security awareness.

March 23rd, 2:00 pm – 3:00 pm, South Lake Union C-123A

March 25th, 11:00 am – 12:00 pm, Health Sciences Center T-269

Shipping Hazardous Materials

Shippers and transporters of hazardous materials and/or infectious substances are required to take this four hour training. The class meets the Department of Transportation (DOT) and International Air Transportation (IATA) requirements for packaging and labeling, terminology, and preparation of documentation.

March 26th, 8:30 am – 12:30 pm, Health Sciences Center T-663

Over – Limited Open Enrollment classes

Please Post

Limited Enrollment Classes for March

Unless specified, all classes are taught at the Facilities Services Training Center in the [Plant Services Building](#). There are a few spaces available in each class. Register online for any of the following classes here: <http://www.ehs.washington.edu/psotrain/corsdesc.shtm>

Confined Space Entry Training (2 day course)

March 3rd 7:30 am – 3:15 pm and March 4th 7:30 am-12:30 pm

This classroom and hands-on training course teaches you how to plan and safely conduct an entry into a permit-required confined space.

Asbestos Awareness

March 10th – 9:00 am – 11:00 am

This 2-hour classroom awareness course will inform you of available information concerning asbestos containing material (ACM) in University buildings.

Forklift Operator Refresher

March 12th – 7:30 am – 9:30 am

This hands-on course will update and review your knowledge of inspections, stability, and safe operation of forklifts. Individual driving tests will be scheduled separately from the class day

Respirator Training/Testing

March 16th – 10:00 am – 12:00 pm

This classroom course will teach you the basics of respiratory protection and how to use it on the job. This course is followed by a scheduled respirator fit-testing that must be passed before the use of a respirator is authorized.

Asbestos < 1% Work Practices & Lead Worker Refresher

March 17th – 7:30 am – 9:30 am

March 17th – 10:00 am – 12:00 pm

This awareness level course for building maintenance and custodial staff provides information about the hazards of asbestos and lead containing material in University buildings.

Fall Protection

March 17th – 12:30 pm – 1:00 pm

This classroom and hands-on training course will teach you how to recognize possible fall hazards and falling object hazards, when fall protection methods and plans are needed, and the methods and tools to reduce or eliminate fall hazards.

Lockout-Tagout

March 18th – 10:00 am – 11:30 am

This classroom course will teach you how lockout-tagout programs work and the different roles workers play to make them successful.

Confined Space Entry Refresher

March 24th – 7:30 am – 9:30 am

March 24th – 10:00am – 12:00 pm

This hands-on refresher class covers the hazards and safety precautions associated with entering or working in permit-required confined spaces.
